## Charging Spot 4.0

### Manual Software Upgrade Instructions

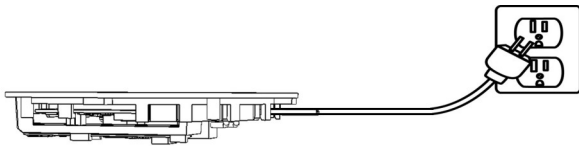

#### Why should you keep your Charging Spot Software up to date?

Keeping your Charging Spots up to date assures your charging solution is always current with the most updated technology. You can be confident your Charging Spots are compatible with new phones, can charge faster with an improved user experience as well as aligned with standards protocol changes.

#### Getting started with your upgrade

- 1 Make sure your Charging Spot is powered and working

- 2 Download the Powermat Charging Spot 4.0 installer app from Google play to your Android device

- 3 Sign in with your username and password. User name and password were provided to you upon purchase
